

KANCHARLA RAMYA

Data Analyst | SQL • Python • Power BI • Excel • Data Visualization

Guntur, Andhra Pradesh | ramyakancharla51@gmail.com | 6300455437 | [Linkedin](#) | [Github.com](#)

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Power BI, and Excel, specializing in data cleaning, exploratory data analysis (EDA), dashboard development, and business intelligence reporting. Proven ability to transform large, complex datasets (600,000+ records) into actionable insights that support data-driven decision-making across e-commerce, healthcare, and business analytics domains. Strong analytical and problem-solving skills, with a focus on delivering measurable business impact.

CORE TECHNICAL SKILLS

- Programming & Query Languages:** Python (Pandas, NumPy, Matplotlib), SQL (MySQL, SQLite)
- Data Visualization & BI Tools:** Power BI (DAX, Power Query, Data Modeling, Star Schema), Microsoft Excel (Pivot Tables, Dashboards, VLOOKUP)
- Analytics:** Data Cleaning, EDA, Descriptive Statistics, Data Modeling, KPI Reporting, Business Intelligence
- Databases & Tools:** MySQL, SQLite, Git, GitHub, Microsoft Office
- Core Strengths:** Analytical Thinking, Problem Solving, Communication, Attention to Detail, Time Management, Team Collaboration

EXPERIENCE

Deloitte Data Analytics Job Simulation — Forage

Virtual Experience

- Completed a real-world data analytics simulation covering data classification, forensic technology analysis, and data-driven client reporting;
- Analyzed structured datasets to identify patterns and presented findings in a clear, business-ready format.

PROJECTS

ShopTrail E-Commerce Analytics Dashboard

Power BI

- Built an interactive Power BI dashboard using a star schema data model across 11 tables and 630,000+ records, with Power Query used for data transformation and cleaning to ensure data quality.
- Delivered actionable insights on product performance, campaign effectiveness, and customer engagement to support stakeholder decision-making and KPI tracking.

Hospital Patient Health Data Analysis

Python

- Performed end-to-end EDA on 3,000+ patient records using Pandas and NumPy to uncover trends in treatment cost, patient satisfaction, hospital stay duration, and readmission risk.
- Automated data profiling and quality assessment using YData Profiling, Sweetviz, and AutoViz, reducing manual review time and
- +translating statistical findings into actionable recommendations.

Task Tracker Management System

Python

- Developed a CRUD-based task management application in Python with task validation, sorting, filtering, productivity summary reporting, and Excel export via Pandas.

Online Book Store Database

SQL

- Designed and normalized a relational database (customers, books, authors, orders, inventory) and wrote optimized SQL queries using joins, subqueries, aggregate functions, and views to analyze sales performance.

Social Media Addiction Analysis

Microsoft Excel

- Analyzed survey data on social media usage patterns and productivity impact using Pivot Tables and interactive Excel dashboards.
- Delivered summary reports and visual insights to support data-driven recommendations on user behavior and engagement trends.

EDUCATION

Chalapathi Institute of Engineering and Technology, Guntur

2022 – 2026

B.Tech, Computer Science & Engineering — CGPA: 81%

Sri Chaitanya Educational Institutions — Intermediate (91%)

2020 – 2022

VR High School — SSC (573/600)

2020

CERTIFICATIONS

- Professional Data Analytics with GenAI (NIIT) • Python (Infosys Springboard) • SQL Basic (HackerRank) • Python Basic (HackerRank)
- Cloud Computing (NPTEL)

Achievements: Participated in IDEATHON and ITech Hackfest (data & technology hackathons); attended a Data Analytics with Python workshop.
